PROFESSIONAL SUMMARY

Detail-oriented and highly motivated Web Developer with a solid foundation in front-end and back-end web technologies, backed by a B.Eng. in Electrical and Electronics Engineering. Experienced in building responsive interfaces and data-driven web solutions using HTML, CSS, JavaScript, and modern CMS platforms like WordPress and Webflow. Proven ability to debug complex workflows, manage data pipelines, and collaborate in high-availability tech environments. Eager to contribute technical problem-solving skills to an entry-level web development or internship role.

TECHNICAL SKILLS

- **Web & Frontend:** HTML5, CSS3, JavaScript (ES6+), Webflow, Responsive Web Design
- **CMS & Databases:** WordPress, SAP HANA Database Monitoring.
- **Tools & Version Control:** VS Code, GitHub, Chrome DevTools, Netlify
- **Core Developer Competencies:** Technical Troubleshooting, Debugging, API/Data Integration, Cross-Functional Collaboration, UI/UX Layout Principles

TECHNICAL PROJECTS

Gas Safety IoT Real-Time Web Dashboard | Final Year Project, Delta State University (2022)

- Built a real-time web dashboard for environmental monitoring, enabling data and alert visualization.
- Integrated Wi-Fi and GSM modules to establish an end-to-end data pipeline from sensors to the web interface.
- Implemented frontend logic to display real-time sensor streams and minimize false positives.
- Managed the full development lifecycle, conducting testing to ensure cross-platform compatibility.

Portfolio Website | Personal Project

- Designed, engineered, and deployed a responsive portfolio showcasing web development projects using HTML, CSS, JavaScript, WordPress, and Webflow.
- Implemented clean semantic layouts, modern responsive web principles, and optimized asset delivery for lightning-fast cross-platform loading.
- Managed code deployments via Git and version control workflows, hosting the production live application securely on Netlify.

PROFESSIONAL EXPERIENCE

IT Infrastructure & Database Support Intern | Project E-Delta, Asaba, Delta State | (Jul 2021 – Dec 2021)

- Monitored enterprise system health and database performance to ensure data integrity and continuous availability.
- Analyzed application, server, and network performance metrics to troubleshoot and debug runtime discrepancies.
- Collaborated with a cross-functional technical team, delivering precise technical documentation.
- Conducted systematic root-cause analyses on performance deviations to reduce alert fatigue and optimize uptime.

EDUCATION

- **Diploma in Web Development** – NIIT (2026).
- **Bachelor of Engineering (B.Eng.), Electrical and Electronics Engineering** | Delta State University, Abraka | (2023)
 - **Classification:** Second Class Upper Division.

CERTIFICATIONS

- **Web Development Diploma** – NIIT, 2026
- **Graduate Member**, Nigerian Society of Engineers (NSE) – 2026
- **Project Management Professional (PMP)** – Skills Edge Consulting, 2024

ADDITIONAL INFORMATION

Language: English (Fluent)

Availability: Immediate

Interests: Web development, AI model training, responsive design
